

**American Recovery and Reinvestment Act of 2009
Program/Funding Summary**

Short title: Superfund

ARRA Reference: Division Interior, Environment, and Related Agencies Title VII Section Hazardous Substance Superfund Program

Funding by federal fiscal year:

Year	Total Florida State Budget Amount	Amounts to Local Governments Passed Through State Agencies	Amounts to Directly to Local Governments	Amounts Directly to Individuals
FFY 2009*	N/A	N/A	N/A	Up to \$25,000,000
FFY 2010				
FFY 2011				
Later Years				
Total	N/A	N/A	N/A	Up to \$25,000,000

*The funds will not pass through the state budget; all funds will be managed directly by EPA and will be awarded directly to cleanup contractors.

Funding by state fiscal year: Funds benefit Florida but are managed directly by EPA.

SFY 2008 – 2009	N/A	N/A	N/A	N/A
SFY 2009 – 2010	N/A	N/A	N/A	N/A
SFY 2011 – 2012	N/A	N/A	N/A	N/A
Later Years	N/A	N/A	N/A	N/A
Total	N/A	N/A	N/A	N/A

Brief description of program or funding including funding distribution method (formula or competitive grant): The Superfund program was set up to locate, investigate and clean up the highest-priority sites contaminated with hazardous waste. EPA directly administers the program in cooperation with states and tribal governments. EPA principally uses a hazard ranking system to evaluate sites and place them on the National Priorities List (NPL). Only sites on the NPL in Florida were considered for these funds. EPA identified three Florida projects to receive Superfund moneys in April, 2009. Those projects are Escambia Treating in Pensacola (up to \$5 million); Tower Chemical in Clermont (\$5-\$10 million); and United Metals in Marianna (\$5-\$10 million).

When funds are expected to be available: EPA identified the three Florida projects to receive Superfund moneys in April, 2009.

How long are funds available: Funds are expected to be available until project completion.

Conditions or prerequisites for accessing funds (include matching or MOE requirements): Funds may only be spent on sites on the NPL in Florida. EPA selected the sites to be funded; Florida had no input in the selection process. No upfront state match was required; however, the state will have to provide a 10% match (up to \$2.5 million) as projects progress. This match can be provided within normal DEP waste program budget resources.

Federal agency: EPA

State agency: Department of Environmental Protection, Office of Regulatory Programs (questions only; the Superfund stimulus money is managed directly by EPA)
